MOUNT OIL SWINDLERS

Government Starts
Big Round-up.

Wide Clean-up of
Oil Companies Begins
in New York.

Firms and Fifty In-
dividuals Are Indicted
for Fraud.

(BY A. P. NIGHT WIRE.)

NEW YORK, June 24.—With mounting seals today on accounts charging fourteen firms and fifty individuals, government agents became known that they were beginning a nation-wide round-up of alleged oil company promoters who are said to have misled the public out of millions within the last few months.

Indictments—all companies, individuals and their officers—are charged with having made false statements to the public to induce them to invest in oil. The indictments are said to have been made in some of the most important oil fields in the country.

Indictments were made by the grand jury of the Southern District of New York. The indictments are said to have been made in some of the most important oil fields in the country.

Secretary Asserts the People
Should Work Together
for One End.

Must Provide American Ships
for Our Increasing Trade
to Foreign Lands.

(BY A. P. NIGHT WIRE.)

SAN DIEGO, June 24.—The United States must continue providing for its Navy and keep it great, said Josephus Daniels, Secretary of the Navy, in an address to the Rotary Club of San Diego today.

The Secretary's speech was part of a program which kept him busy all day. Much of his time was devoted to inspection of the great marine base, on which work is proceeding fast, of sites for the navy hospital and training station to be built here.

San Diego, June 24.—Secretary of the Navy, Josephus Daniels, today inspected San Diego's naval ship and base, visited the large fuel depot at La Playa, and spoke to the Rotary Club of San Diego.

TENNESSEE TO DECIDE.

Key State in Fight
for Suffrage.

May Be Thirty-sixth in Union
to Ratify, Giving Women
the Franchise.

Assistant Attorney-General
Delivers Opinion That
Precipitates Issue.

(EXCLUSIVE DISPATCH.)

WASHINGTON, June 24.—Tennessee may be the thirty-sixth State to ratify the suffrage amendment, in spite of the clause in the Constitution of the State providing that no Legislature shall act on an amendment to the Federal Constitution unless elected after the proposal of the amendment.

The present Legislature was elected before the proposal of the amendment, but it nevertheless has the clear power to ratify the amendment, according to William T. Friereson, Assistant Attorney-General of the United States.

Friereson's opinion, given orally and in writing, both to Gov. Roberts and the Attorney-General of Tennessee, and communicated to the press, is in response to his request for the views of the Department of Justice on the Tennessee situation, was based largely on the decision of the United States Supreme Court in the Ohio referendum case. It is that the State may ratify the amendment at any time.

Following the receipt of Friereson's letter, the President last night telegraphed Gov. Roberts, asking him to call a special session of the Tennessee Legislature to consider the suffrage amendment.

MAKES :: CRUCIAL :: DECISION.

Action May Mean Nation-Wide Suffrage.

William I. Friereson.

The decision of Asst. Atty.-Gen. Friereson that the Tennessee Legislature can ratify the suffrage amendment without delay is causing great interest, as favorable action by that State will mean that women throughout America may vote at the coming Presidential election. Tennessee is the only State, with the possible exception of Vermont, that can take the necessary action in time.

SHRINE ENDS CONVENTION.

Portland Royal Host; Al Malaikah Temple
of Los Angeles on Way Home.

PORTLAND, June 24.—Another great parade, the final official event, featured the closing day of the great Shrine convention. The parade was the annual floral pageant of the Portland Shrine festival, given this year for the special entertainment of the Shrine visitors. Hundreds of cars in line were decorated with masses of flowers. Portland voices and other scenes and the formal floats were both elaborate and beautiful. It was the greatest floral pageant of the many this city has seen.

The parade was enjoyed particularly by the Shrine members because it was one of the few events of the week in which they were spectators instead of participants, although many of the Shrine bands again marched to supply music. An unusual feature was the presence of a large delegation of Canadian mounted police, it being the first time this organization has been permitted to leave the Dominion.

Passena won the first prize for floats representing outside cities. It was in competition with a large number of entries from Oregon and Washington. The Passena entry was a floral float, one of the most beautiful floats in the entire parade. Passena also won in this class last year. Another big event today was a masked land concert and patrol drill on Multnomah field.

The Imperial Council appropriated \$100 toward the fund for a children's hospital, which was authorized yesterday. Today was the birthday of W. Frederick Kendrick, retiring Potentate, and the delegates presented him with a \$7500 check. Mr. Kendrick turned the gift over to the hospital fund.

Pueblo, Wichita Falls, Tex., and Tokpeka were granted new Shrine charters. They were the only ones of a large number of applications that were acted on favorably.

The members of the Imperial Council Divan now are looking forward to their trip to Alaska. They will sail from Tacoma next Saturday as the guests of ARN Temple of that city, the home of Ellis Lewis Garretson, the new Potentate.

DEMOCRATS OF LOUISIANA DECLARE MILLIONS ARE NOW AIDING MOONSHINE TRADE

NEW ORLEANS (La.) June 24.—Declaration that they would "not be in sympathy with any Democratic platform which ignores our demands for the modification of the Volstead law," is made in a telegram addressed by the Louisiana Liberty League tonight to William J. Bryan and "the chairman and members of the platform committee of the Democratic National Convention." The league, according to its president, Arsene Perillat, has more than 15,000 members in Louisiana.

Addressing Mr. Bryan, the league in its telegram said it wished to take issue with him on the matter of prohibition, and added:

"You and the school of thought you speak for violate the spirit of our country and the intent of our Constitution every time you attempt to enforce in the form of summary laws your extreme impracticable and unwholesome views on the people of this country."

"We are glad the saloons have been closed, but in denying us the beverages with our meals and in our homes to which, during many generations, our families have been accustomed, your school of class control has done us a very great detriment."

"We, as voters, will not be in sympathy with any Democratic platform which ignores our demands for the modification of the Volstead law. It is an undeniable fact that millions of once law-abiding citizens have become deliberate law violators and are now encouraging smugglers and moonshiners in the sale and distribution of harmful liquors."

"Modification restoring personal liberty in the importation, manufacture, purchase and use of wine and beer would soon put an end to this nation-wide practice of law violations."

PHANTOM McADOO BOOM
HAUNTS CONVENTION CITY

Like Banquo's Ghost, It Makes Democratic Leaders Jumpy and Will Not Down Despite Denials.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, June 24.—More and more elements of uncertainty appeared in the line-up of the Democratic National Convention today as the leaders of first magnitude arrived in increasing numbers and put their heads together over questions of policies and men.

For the time being the platform committee transferred their allegiance to other candidates. There is something about the platform committee that makes other Democrats wonder whether they will stay put in their new affiliations.

McAdoo's announcement that he would not be a candidate for the Democratic Presidential nomination, his name recurred very frequently in gossip in national convention circles. The McAdoo boom, for the origin and war chests of which the Senate campaign investigating committee sought in vain, appears to "thrive even against the frosty attitude of McAdoo himself."

RETRIBUTION AWAITS PALMER
ON HIS ARRIVAL AT BAY CITY.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, June 24.—The State Housewives' League of California will demand a conference with Attorney General Palmer on the high cost of living as soon as he reaches San Francisco, Mrs. Edward F. Scanlon, president of the league, announced today.

She declared that the league had never received any assistance in meeting the cost-of-living problem from Mrs. Annette Adams, United States District Attorney in San Francisco, and said that the "fair trade committee" appointed by Mrs. Adams had representatives from all the "big interests," but none from the "heavily burdened consuming public."

McADOO'S BOOM HAUNTS LEADERS

Like Banquet's Ghost, It Will Not Fade Away.

Supporters Still Hope Despite His Orders.

Other Candidates Become Fussy and Nervous.

(Continued from First Page.)

Ohio and John W. Davis from West Virginia.

Should the early balloting make it appear that the necessary two-thirds majority to nominate could not be obtained for Palmer or Cox, Davis supporters claimed today that he would inherit the Pennsylvania and Ohio delegations. They anticipated a general surge toward Davis under the impetus of the powerful blocks of votes.

Supporters of Vice-President Marshall for the nomination looked at the situation today much as did the Davis adherents. They thought that a deadlock developed as expected and their plans were drawn with that in mind.

The only Presidential candidate on the ground today receiving delegates and visitors was Senator Owen of Oklahoma. He did not discuss his chances for the nomination, but was willing to talk about the platform. The party declaration should be short and should be written in the simplest English and should emphasize the all-embracing doctrine of popular government, he said, adding that it should declare for the faithful execution of the Nineteenth Amendment.

Atty-Gen. Palmer will arrive tomorrow, accompanied by Mrs. Palmer and personal friends, C. C. Carlin, a Palmer manager, said the situation so far as the Attorney-General's candidacy was concerned was satisfactory. "It will be Palmer or somebody who has not yet been mentioned," was the way Carlin summed up the situation.

The headquarters of Gov. Edwards of New Jersey, avowed wet candidate for the Presidential nomination, showed activity today with the arrival of Walker Vick, chief manager of the Edwards boom. Disappointment was expressed by many Edwards supporters over the inability of the New Jersey Governor to come in person.

Feeling the arrival of the bulk of the Ohio delegation, there were no developments in the campaign of Gov. Cox. The fact, that there was no great activity at any of the headquarters, as the big rush of dele-

gates will not begin until tomorrow. On several questions of convention organization, too, the party chiefs were in a quandary. There were some rumblings of a fight against Senator Glass, the administration choice for chairman of the platform committee, and the problem of choosing a permanent convention chairman got into a mess which threatened to upset seriously the plans of some administration supporters.

WALSH STORM CENTER.

Senator Walsh of Montana, who voted in the Senate last March for ratification of the peace treaty with the Republicans reservations, promised to become the storm center of the organization fight. In some quarters he was urged as a candidate against Senator Glass for head of the platform committee, and he was said to be favored also by other powerful forces more or less out of accord with some administration supporters.

The administration people have suggested Secretary Colby of the State Department or Chairman Cummings of the National Committee as permanent chairman, but it was said today that no decision has been reached and that Senator Walsh might be accepted as secretary. The general trend tonight seemed to be to put him forward for the convention chairmanship, rather than for the head of the platform committee.

Chairman Cummings and other national committee officials disappointed talk of an open anti-administration fight, but outlined vigorously against lobby gossip that President Wilson was attempting to dictate to the party in regard to the candidates or the platform.

"I am aware," said Cummings, "of the intention by the President to communicate to the convention in any way, shape or form. I anticipate no voluntary suggestion from him."

He added that of course there could be no restraint on the President's friends in any communication with the White House, though he said the whole attitude of the Executive was to keep the convention work on its own destiny.

Senator Glass, who arrived last night from Washington as the convention's most prominent spokesman, also denied that the President would seek to control the deliberations here. The Senator came to make a fight favorable to the administration but if he brought any word of White House preference between candidates it did not show up on the surface in today's conference.

Members of the national committee, which meets tomorrow afternoon at the Hotel Hamilton, and delegates to the Democratic convention, anticipate a lively time if the President's friends appear and try to have himself placed on the list. The Missouri Senator, who is a bitter opponent of the League of Nations covenant and who has opposed many of the administration

Seating Capacity Said to be Greater than Chicago Coliseum.

The inset is of J. Bruce Kremer of Butte, Mont., vice-chairman of the Democratic National Committee. He is slated to call the great convention to order next Monday. Mr. Kremer is said to have been selected for two reasons—because Homer S. Cummings, chairman of the committee, has been designated as temporary chairman of the convention, and because it was thought fitting that Mr. Kremer, a westerner, should open the first great national political convention ever held west of the Rocky Mountains.

to the convention resolution committee. The announcement generally was regarded as aggravating the possibility of a determined fight over the Irish question. Privately, some of the friends of the Irish Freedom movement had advocated a plank which would be requested by De Valera. He is expected to lead the fight for Democratic support for Irish independence.

Daniel T. O'Connell, who said he spoke for the national committee of the Friends of Irish Freedom, made tonight's announcement. He said that the decision not to offer a second plank makes clear that those directing the activities of the 20,000-odd Americans of Irish blood, who look to the Irish Freedom movement for guidance, will not permit themselves to become parties in any controversy. They believe the cause is bigger than the views of any group of men. They are determined furthermore, that no faction shall be created.

The Georgia contest, the only one officially filed with the national committee, probably will be considered by a subcommittee before final action is taken by the full committee. This is a fight between one set of delegates favoring A. Mitchell Palmer for President and another known as the Hoke Smith-Tom Watson group. The adjustment of this dispute is expected to settle the contest for national committee members from Georgia. Clark Howell, eldest committeeman in point of service in the national body, is lined up with the Palmer forces and is opposed by W. G. Voren.

Senator Reed said here tonight that he had no objection to his name being placed on the list of delegates. He said his credentials were regular and would be filed with the national committee tomorrow and if they are rejected he proposed to file them with the Credentials Committee of the convention where it was expected that he would be able to get on the list. He said his credentials were regular and would be filed with the national committee tomorrow and if they are rejected he proposed to file them with the Credentials Committee of the convention where it was expected that he would be able to get on the list.

It was said that if Senator Reed's credentials were not recognized an effort would be made by the Senator to obtain a proxy to make his way on the floor and fight the administration plank on the League of Nations. Supporters of the Wilson administration oppose the efforts of his intention to resist Reed's efforts to participate in the convention proceedings.

DISAGREE ON IRISH PLANK. The Friends of Irish Freedom, whose representative came to San Francisco to urge a plank in the Democratic platform pertaining to Ireland, announced tonight that because of the activities of the Irish sympathizers under the direct guidance of President De Valera of the Irish Free State, they will not propose any declaration

engraved in important developments incident to laying the groundwork for a nationwide campaign that it has been physically impossible for me to see and enjoy many of the messages which come the closest to my heart. I need not tell you how gratified I was to know of the cordial greeting from the old home town. I hope the people of Marion will understand how deeply I appreciate the confidence and esteem which they have ever been so generous in showing me.

In the very near future I hope to be in Marion and have the pleasure of meeting and greeting you and all my many good friends. The letter was written June 23. Senator Harding is expected here July 5.

Senator Glass was busy with conference today, the purpose of which was not disclosed. They appeared to have to do with platform matters rather than candidates and it was probable that much of the importance in the party councils were quite fully advised today as to what the President thought on questions to be solved and the extent to which his personal influence or that of his own might be expected to be felt in next week's proceedings. There was nothing to indicate that Mr. Wilson had gone beyond a simple statement of his attitude to the

Compromise Program. Leaders have not withheld their opinion as expressed by Chairman Cummings of the national committee that no other platform issue would fail to be adjusted in committee. Cummings had knowledge, it is believed, of the course both administration forces and the Bryan faction proposed as to the League issue. In some quarters his statement was taken as a hint that a compromise program had already been worked out. There was no anticipation that differing views on the labor-plank, profiteering radicalism or any other subject could not be brought into compromise by his opposition. Bryan's arrival should clear the air as to the League issue. Leaders here now apparently are prepared to accept President Wilson's views in this regard with little question. If Bryan, as has been suggested, plans to urge the whole League plank, it is probable that much of the importance in the party councils were quite fully advised today as to what the President thought on questions to be solved and the extent to which his personal influence or that of his own might be expected to be felt in next week's proceedings. CENTRAL SIBERIA IN SOVIET GRIP

Bolshevik Rule Thoroughly
Established at Irkutsk.

Food Conditions Are Serious;
Chinese Flee-Country.

Red Army Intrenched; Will
Resist Any Jap Attack.

(BY CABLE AND ASSOCIATED PRESS.)
IRKUTSK (Central Siberia) June 19.—(Delayed in Transmission.)

Soviet rule has been thoroughly established in Irkutsk. All institutions have been nationalized, most of the stores have been closed and a permit is necessary even to purchase a newspaper.

Food conditions are most serious and the population eats black bread which cannot be obtained except with governmental cards. Chinese merchants charge 250 rubles a pound for this bread.

Few foreigners, and no foreign consular officials, remain in Irkutsk. It is estimated that 10,000 Chinese left Irkutsk during May to walk to the Chinese frontier. Officials declare the food crisis will continue until harvest time.

This city was the scene of the tragic end of Admiral Kolchak's efforts to establish supreme rule in Siberia.

FIRST AMERICAN TO ENTER.
The Associated Press correspondent, in reaching Irkutsk, made a 2500-mile detour which took six weeks, from Vladivostok through

China and Mongolia and across the 700-mile stretch of the Gobi Desert. He was the first American to enter the territory since the collapse of the Kolchak regime. Crossing the Mongolian frontier, he entered the new buffer state of the Far Eastern republic and found it necessary to wait at Verkhne-Udinsk for Bolshevik permission to enter Soviet territory. He was assured that an American press representative would be welcome.

The trip led over the old caravan route, in order that the correspondent might avoid what is known here as the "black spot of Siberia," a district near Chita, where remaining reactionaries under Gen. Semanoff, supported by Japanese military forces, continue to block the Russian rail route.

READY FOR JAPS.
The Fifth Bolshevik Army, which broke the power of Admiral Kolchak, is stationed near here. The Bolshevik side of the Selenge River has been newly intrenched and the Soviet army is ready in case Japanese invade its territory.

There is direct wire communication from here to Moscow, and it is claimed trains make the trip fourteen days faster than before. Except high government officials must travel in freight cars. Between Verkhne-Udinsk and Irkutsk a regular train schedule is maintained. Further east toward the China front only military trains are being run.

Newspapers here print the daily official statements relative to operations on the Polish front and statements by Nikolai Lenin, Russian Bolshevik Premier, on the foreign affairs of the country.

SAN DIEGO PLANES IN LONG FLIGHT TODAY.

NONSTOP TRIP TO BAY CITY FROM SAN DIEGO BEGINS THIS MORNING.

(BY A. P. NIGHT WIRE.)
SAN DIEGO, June 24.—Plans were completed today for the nonstop flight to San Francisco, which three large seaplanes from the Naval Air Station North Island will attempt tomorrow morning.

With only two vessels patrolling the route, the great planes will start at 4:30 a. m., according to announcement made this evening.

Six officers and twelve enlisted men will comprise the crews of the seaplanes. They are expected to keep in touch with North Island throughout the flight by means of wireless.

Sub-Chaser 278 left yesterday for Point Bar, where one rescue station will be maintained, and the Eagle 49, left today to patrol the first 800 miles of the route. The flight is expected to take about eight hours.

BOMB OUTRAGE RESULT OF UNION LABOR ROW.

ONE GIRL KILLED, ONE INJURED IN BLAST THAT WRECKED PLUMBING SHOP.

(EXCLUSIVE DISPATCH.)
CHICAGO, June 24.—William H. Downes, a plumber, refused to join the union, so Ethel Roberts, 14 years old, is dead, and Annie Quest, 17 years old, is badly injured.

Both were hurled from the sidewalk to the middle of the street, cut by flying glass and bruised by falling timbers when a time bomb demolished the plumbing establishment operated by Downes. They were hurrying home from work and passed the shop just as the bomb exploded.

Last January a bomb was exploded at the home of Downes. The family was eating supper. All were severely injured. Every window in the house and in all adjoining houses for half a block were broken.

Downes has had much trouble with the Master Plumbers' Association and the labor union. He claims to have lost \$200,000 in contracts he could not fulfill because strikes were called upon him repeatedly.

WESTERN PACIFIC CLAIMS DAMAGES.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, June 24.—The United States Railroad Administration should pay the Western Pacific \$234,577 for depreciation of the line during Federal control as a result of deferred maintenance, and \$261,755 for damage to the track in Nevada, T. J. Wyche, chief engineer of the road, testified today at the Interstate Commerce Commission hearing of the Western Pacific rental and damage claims.

As a result of using the parallel lines of the Western Pacific and Southern Pacific between Wells and Winnemucca, Nev., as a double track, there was creeping of the Western Pacific rails because the carried eastbound traffic only, Wyche said. Three-fourths of this traffic was Southern Pacific, he added.

CRISIS IN SANTIAGO NO NEARER SOLUTION.

(BY CABLE AND ASSOCIATED PRESS.)
SANTIAGO, June 24.—Prospects of a solution of the ministerial crisis before the Presidential election of Friday appeared remote last night, owing to repeated failures by the leading parties to agree upon representation of the liberal alliance group in a cabinet to be headed by Pedro Pablo Kuczynski, Premier, and Minister of the Interior in the Ministry, which resigned June 18. He is a National Unionist.

AMERICAN MISSIONS TRICKED, SAYS LETTER

(BY CABLE AND ASSOCIATED PRESS.)
LONDON, June 24.—Alexander Devine, Montenegrin Minister to Great Britain, in a letter to Earl Curzon of Kedleston, Secretary for Foreign Affairs, urges the secretary to obtain from the Serbian government permission for British relief

work in Montenegro "among the starving and naked Montenegrins."

The letter charges that the American Relief missions in Montenegro have been "either bamboozled or have played into the hands of the Serbians, and that the American relief that has entered the country has been used for political purposes, and some of it has gone to those Montenegrins who happen to take

a different view to the Serbians who have captured their country and who wish to be independent."

The inevitable has happened. LANCASTER (O.) June 24.—Two boys born Wednesday to Mr. and Mrs. Enos White, farmers here, have been named "Harding" and "Coolidge."

HARDING HEARS FARMERS' VIEWS

Grange Official Has Conference With Nominee.

Compelled to Decline Invitation From Teachers.

Women's Work in the Campaign is Indorsed.

(BY A. P. MORTIMER.)

WASHINGTON, June 24.—Senator Harding, the Republican Presidential nominee, spent another busy day today receiving callers, and clearing up an accumulation of mail and other matters.

Among his callers was T. C. Atkinson, Washington representative of the National Grange, who presented a memorandum giving the farmers' viewpoint upon leading issues.

"I do not think it would be improper for me to say that he stressed the desire to have the men who farmed the farms represented in the various board and commissions of the government," said Senator Harding.

Elmer Dover, of Tacoma, Wash., former secretary to Mark Hanna, called to offer his services during the campaign.

TACOMA (Wash.) June 24.—"I am as deeply interested in education as anyone in America," Senator Harding said in a telegram today notifying Mrs. Josephine Corlies Preston, State Superintendent of schools, that he found it impossible to accept an invitation to speak before the National Education Association in Salt Lake City July 4.

Senator Harding informed Mrs. Preston, who is president of the association, that he deeply regretted that plans for his speech of acceptance of the Presidential nomination made it impossible to meet the educators of the nation.

Margaret Hill McCarter of Kansas, the first woman to address a national Republican convention, has accepted an invitation to speak before the meeting. Her subject will be "The Heart of a Child."

PITTSBURGH, June 24.—Indorsement of women's participation in the Republican campaign was conveyed today in a message from

Senator Harding to the National Grange, which had been made for a deputation of suffragists to call upon the Senator at his home here in July, with regard to ratification of the Federal suffrage amendment, but there is to be no picketing.

SENATOR HARDING, Republican Presidential candidate, is a luncheon of the Women's Republican Committee of Allegheny county, here.

"I am asking you," wired Senator Harding to the chairman of the committee, "to convey a nominee's greeting and to say in that connection how cordially I approve of the enthusiastic activities of American womanhood in the Republican party, which is the most progressive agency of popular government. As a supporter of suffrage in the Senate, I want you to know of my hope for the suffrage amendment, consummated in time to afford the women of America full participation in the Presidential election."

BRITAIN IS WATCHING AMERICAN MARINE BILL.

EAGERLY AWAIT TEXT OF THE JONES MEASURE, AS IT IS VITAL TO COMMERCE.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, June 24.—British marine insurance companies are eagerly awaiting the text of the Jones measure, which is expected to be signed by President Wilson, for which they have cabled. Pending the receipt of the text, officials of business firms at a London conference, which was held yesterday, believed that some joint action will be decided on by the underwriters, among whom there is a disposition to endeavor to find some way to continue their American business.

The refusal of Lloyd's Marine Insurance Exchange to take more insurance on American cargoes is regarded as a serious situation, and the belief is expressed that this may soon be followed by the opening of a marine insurance bureau in New York. It had been hoped before the President signed the measure that some way would be found to prevent a "delicate" situation between the business interests involved in the two countries, which British insurance officials are of the opinion will grow out of the passage of the law.

INDORSES BIBLE PLAY.

Community Development Association Investigates Production.

So unqualified is the approval of the Pilgrimage Day venture by a special committee of the Community Development Association that Arthur Letts, one of the members of a special committee appointed by the directors to investigate the project followed his investigation by making a personal subscription of \$1000 for its support. Other members of the committee, appointed at a meeting of the directors last Tuesday evening, are G. Harold Powell and Harry Chandler.

On Wednesday evening the investigating committee visited the scene of the venture, El Camino Real, Sanborn at the junction of Highland and Cahuenga Boulevards, in Hollywood. The opinion arrived at says, in part: "From a spiritual, uplifting, community-developing and nationally and internationally beneficial standpoint, the play is a splendid production and its proponents seem worthy of the complete indorsement and support of this community."

The first public production of the Pilgrimage Play will be given next Monday night when a ten-week season will be begun. The play is a dramatization of the whole life of Christ, with every word of the dialogue taken from the Bible.

Tonight at a preopening performance 1018 invited guests, the capacity of the stadium's seating arrangements, will witness a special performance of the play. Tonight's guests will include ministers of all denominations and their wives, Gov. Stephens and Mrs. Stephens, Mayor Snyder and Mrs. Snyder, members of the City Council and the Board of Supervisors and their wives, distinguished visitors. Tickets for the formal opening Monday night are being sold at the Birkel Music Store, 445 South Broadway, and at the stadium.

FOR GIFT HOSPITAL.

Cornerstone to be laid today by Masons at Whittier.

The cornerstone of the new Whittier hospital will be laid with Masonic ceremonies at 2:30 p.m. today, by Charles Albert Adams of San Francisco, Grand Master of Masons in the Jurisdiction of California. Justice Thomas of Santa Ana will deliver an address.

The hospital is the gift of Col. Simon J. Murphy, Jr., of Pasadena to the city of Whittier as a memorial to his father, the late Simon J. Murphy, Jr., pioneer developer of the Whittier section. The new institution is located in Alta Park, an attractive thirty-acre site at the east of the Quaker City.

Present plans call for an outlay of \$100,000, to make the hospital one of the best in the Southland.

Col. Murphy will be present and participate in the ceremonies today.

SALVADOR ATTACKED BY FEVER EPIDEMIC.

(BY A. P. MORTIMER.)

WASHINGTON, June 24.—An epidemic of yellow fever in the northwestern part of Salvador, near the Guatemalan border, was reported to the State Department today by the Salvadoran Legation, it was announced at the Pan-American Health Bureau.

Advices to the Legation say forty-nine cases had been discovered. Of these seventeen had proved fatal. The infected district, the advices say, had been isolated.

FOUR LOSE LIVES IN ILLINOIS EXPLOSION.

(BY A. P. MORTIMER.)

SPRINGFIELD, June 24.—Four workmen were killed in an explosion and five others were seriously injured when a party destroyed the Western Cartridge Company's plant today. Bodies of two of the victims could not be found. The cause of the explosion is unknown.

PROBATION FOR SLAYER STOKES.

Judge States no Jury Would
Find Captain Guilty.

Blames Wife for Tragedy and
Critiques Dead Doctor.

Woolwine Protests Release;
Clashes With Davis.

Charged with having obtained
by false pretenses a large sum
of money from his millionaire
bride of a few months, Andrew
Sylvester, a retired stockbroker,
55 years old, was arrested at
Temple and Spring streets last
night by Detective Sergeants
Cline and Cato, acting on tele-
graphic instructions from the
authorities at Fort Dodge, Iowa,
his bride's home town. He is
held in the City Jail pending the
arrangement of extradition.

Mr. Sylvester has been speculat-
ing during the two months that he
has been in this city, the police say.
The funds were supposedly from
his wife, the principal sum that he
obtained being reported to be \$25,
000. His bride, whose maiden name
was Illingworth, living in this
city, at 1234 South Van Ness ave-
nue, Mr. Illingworth refused to
discuss a brother-in-law, a well-
known night.

At the detective bureau the for-
mer stockbroker told his detective
that he believes his wife merely
wanted to bring him back to her
home, a clash between counsel and
what was understood to be the Dis-
trict Attorney's attitude towards prob-
ation.

When Capt. Stokes, with his at-
torney, LeCompte Davis, stood up
for the pronouncement of judgment,
a surprise was sprung by Dist. At-
torney Woolwine, who entered a protest
to the granting of probation. This
caused a clash between counsel and
what was understood to be the Dis-
trict Attorney's attitude towards prob-
ation.

Mr. Woolwine protested that while it
had not been his custom to inter-
fere in probation matters, he felt
it his duty to protest in this case.
"The law does not allow a man to
be his own executioner," he said.
Stokes in his own statement said he
made a club, bought a revolver and
placed them in a garage. It does not
appear that Dr. Roberts was armed.
Stokes said he had a revolver and
cheap in this country since our con-
flict against the war."

Mr. Davis expressed surprise at
the statement of Mr. Woolwine. He
said he had understood Mr. Wool-
wine would not oppose probation. His
client, he stated, is not likely to
commit another such offense, and
he had the greatest provocation in
this case.

Stating that Capt. Stokes should
not hope to protect the reputation
of his wife by pleading guilty to
manslaughter, because the ground
for granting probation was that he
was not a cold-blooded murderer,
the court said that even if this was
the case, the court said that men
previously have been granted prob-
ation for manslaughter in this and
other countries.

MITIGATING FACTS.
The court found that mitigating
circumstances had been shown by
the defendant. He said that Dr.
Roberts and Mrs. Stokes conducted
themselves in a high and proper
manner for six months prior to the
killing.

The judge regretted to have to
say anything that would reflect upon
the honor of a man who was not
there to speak for himself, but said
he was driven to the conclusion that
Dr. Roberts was not free from blame.
An intimate friend of the physi-
cian had said that Mrs. Stokes
threw herself upon the doctor in a
such a manner as to lead him
eventually to intimacy with her.
The court said that even if this was
so the evidence showed that Dr.
Roberts did his share of the seek-
ing.

TEMPERED BY WOMAN.
"It is of little consequence in de-
termining this application for prob-
ation whether Dr. Roberts was
constantly being teased by Mrs.
Stokes," said the judge, "as the fact
is established beyond controversy
that his relations with her were
ill-timed."
When the defendant
returned from service in the
war he endeavored to keep up the
relationship existing between Dr.
Roberts and his wife by reasoning
with her, taking up the matter per-
sonally with Dr. Roberts, by calling
on Dr. Roberts to his home and the
husband asking his wife to choose be-
tween them, and when she could
not choose, by ordering Dr. Roberts
to stay away; by endeavoring to
sell his home and take his family out
of the State and away from Dr.
Roberts' influence. In spite of all
these efforts, Dr. Roberts and Mrs.
Stokes continued in their relation-
ship."

MRS. STOKES BLAMED.
"The person most to blame in the
light of fact for this tragedy is Mrs.
Stokes. She has a husband, who, all
the evidence shows, gave her no
cause for complaint, and who was
today Stephen's father. He was a
nourished son-in-law, and she was
able to accustom the man to her
household."

She was reasoned with by her
mother, sister and brother as well
as her husband, and it could not
be doubted she had occasion to re-
sist. I agree with the probation of-
ficer that on the facts which he has
presented a jury of twelve women and
men would acquit the defendant of
anything."

The court declared that "surely if
it be possible to have mitigating cir-
cumstances in a homicide case, we
have them here." He said he was
gratified to grant probation would en-
courage others to take the law in-
to their own hands.

The court commended Probation
Officer Lewis for his comprehensive
report. Mrs. Stokes was not in court
during the hearing. After the hear-
ing, Stokes was released he left for
the home of Mrs. Mary Dunkeberger,
his mother-in-law, where his wife
is staying.

BOOTLEG STOCK IS AQUA PURA.

Arrest of Two on Suspicion of
Theft Discloses New Plot
to Fail for Thirst.

Persons who try to quench
a thirst in Los Angeles are in
serious danger of drinking
water. By arresting A. E.
Floyd, 30 years of age,
and George J. Lewis, 35,
on suspicion that the pair
had stolen an automobile,
the police were led yester-
day to a cache of 120 bot-
tles filled with a whisky-
colored fluid but labeled "water."

The officers sampled the liquid
and pronounced it excellent
squeaked siller, artificially col-
ored. It is presumed the con-
coction was for sale to citizens
with dry throats and full pockets,
the labels being a safe-
guard against fraud charges.

Floyd and Lewis were ar-
rested at 911 So. Main street,
a vacant house, where the water
works was found. In Floyd's
room on South Main street was
discovered a still that presum-
ably was used to make bootleg
liquor to fill decoy bottles.

Both men are held in the
Boyle Heights Jail on suspicion
of larceny.

According to Mr. Dorman, many
daymen are going out of this busi-
ness because they cannot make a
pay, and the community must see
the necessity of paying whatever the
situation demands in order to keep
the milk industry from going to
pieces, a thing which he declared
would be a genuine calamity to the
children of the city.

George E. Platt of the Los An-
geles Creamery Company laid some
of the blame upon the power com-
panies which, he said, have diverted
power to ranchers north of the
city. He said that the power com-
pany is not getting the credit it de-
serves for the help it has given in
support of the milk business.

In reply to the charge made by
several persons at the hearing, to
the effect that local milk does not
show much cream, Mr. Platt as-
serted that pasteurization compresses
the fat globules and causes the
cream to occupy less space at the
top of a bottle than is occupied by
milk from the old family cow. He
explained through a system of
standardization all local creameries
build up their milk, before deliver-
ing it, to a certain standard, and
by mixing cream in the tanks, even
though the milk generally shows
little more than a 3.5 per cent test.

was Illingworth, living in this
city, at 1234 South Van Ness ave-
nue, Mr. Illingworth refused to
discuss a brother-in-law, a well-
known night.

At the detective bureau the for-
mer stockbroker told his detective
that he believes his wife merely
wanted to bring him back to her
home, a clash between counsel and
what was understood to be the Dis-
trict Attorney's attitude towards prob-
ation.

When Capt. Stokes, with his at-
torney, LeCompte Davis, stood up
for the pronouncement of judgment,
a surprise was sprung by Dist. At-
torney Woolwine, who entered a protest
to the granting of probation. This
caused a clash between counsel and
what was understood to be the Dis-
trict Attorney's attitude towards prob-
ation.

Mr. Woolwine protested that while it
had not been his custom to inter-
fere in probation matters, he felt
it his duty to protest in this case.
"The law does not allow a man to
be his own executioner," he said.
Stokes in his own statement said he
made a club, bought a revolver and
placed them in a garage. It does not
appear that Dr. Roberts was armed.
Stokes said he had a revolver and
cheap in this country since our con-
flict against the war."

Mr. Davis expressed surprise at
the statement of Mr. Woolwine. He
said he had understood Mr. Wool-
wine would not oppose probation. His
client, he stated, is not likely to
commit another such offense, and
he had the greatest provocation in
this case.

Stating that Capt. Stokes should
not hope to protect the reputation
of his wife by pleading guilty to
manslaughter, because the ground
for granting probation was that he
was not a cold-blooded murderer,
the court said that even if this was
the case, the court said that men
previously have been granted prob-
ation for manslaughter in this and
other countries.

MITIGATING FACTS.
The court found that mitigating
circumstances had been shown by
the defendant. He said that Dr.
Roberts and Mrs. Stokes conducted
themselves in a high and proper
manner for six months prior to the
killing.

The judge regretted to have to
say anything that would reflect upon
the honor of a man who was not
there to speak for himself, but said
he was driven to the conclusion that
Dr. Roberts was not free from blame.
An intimate friend of the physi-
cian had said that Mrs. Stokes
threw herself upon the doctor in a
such a manner as to lead him
eventually to intimacy with her.
The court said that even if this was
so the evidence showed that Dr.
Roberts did his share of the seek-
ing.

TEMPERED BY WOMAN.
"It is of little consequence in de-
termining this application for prob-
ation whether Dr. Roberts was
constantly being teased by Mrs.
Stokes," said the judge, "as the fact
is established beyond controversy
that his relations with her were
ill-timed."
When the defendant
returned from service in the
war he endeavored to keep up the
relationship existing between Dr.
Roberts and his wife by reasoning
with her, taking up the matter per-
sonally with Dr. Roberts, by calling
on Dr. Roberts to his home and the
husband asking his wife to choose be-
tween them, and when she could
not choose, by ordering Dr. Roberts
to stay away; by endeavoring to
sell his home and take his family out
of the State and away from Dr.
Roberts' influence. In spite of all
these efforts, Dr. Roberts and Mrs.
Stokes continued in their relation-
ship."

MRS. STOKES BLAMED.
"The person most to blame in the
light of fact for this tragedy is Mrs.
Stokes. She has a husband, who, all
the evidence shows, gave her no
cause for complaint, and who was
today Stephen's father. He was a
nourished son-in-law, and she was
able to accustom the man to her
household."

She was reasoned with by her
mother, sister and brother as well
as her husband, and it could not
be doubted she had occasion to re-
sist. I agree with the probation of-
ficer that on the facts which he has
presented a jury of twelve women and
men would acquit the defendant of
anything."

The court declared that "surely if
it be possible to have mitigating cir-
cumstances in a homicide case, we
have them here." He said he was
gratified to grant probation would en-
courage others to take the law in-
to their own hands.

The court commended Probation
Officer Lewis for his comprehensive
report. Mrs. Stokes was not in court
during the hearing. After the hear-
ing, Stokes was released he left for
the home of Mrs. Mary Dunkeberger,
his mother-in-law, where his wife
is staying.

55 years old, was arrested at
Temple and Spring streets last
night by Detective Sergeants

authorities at Fort Dodge, Iowa,
his bride's home town. He is
held in the City Jail pending the

The funds were supposedly from
his wife, the principal sum that he

The People and Their Daily Troubles

DOROTHY DIX TALKS TEAM WORK.

BY DOROTHY DIX.

Did you ever consider the value of teamwork in the family?

Of course, we all know that no one man, no matter how marvelous a player, he can win a football game by his own efforts alone. It takes the whole team, playing as a unit, pooling their united skill and strength, and with no thought, but for the common success to put the ball over the goal.

Precisely the same thing is true of families. The reason that so many households are bankrupt in purse and peace and happiness, is not because the individual members of it lack merit, but because they have not learned to do team work. So they fail.

Not long ago a Hebrew friend of mine who has made a great fortune, said to me:

"The reason we Jews succeed so often is because our families stick together and work together. When you see a father and mother and a house full of children all striving for the same object you may be very sure they will attain it."

Perhaps at first they don't make much money individually, but the aggregate earnings of the whole family amounts to a respectable sum, and using it as a whole it gives them a working capital that enables them to branch out into a bigger business that eventually makes them all rich, whereas no member of the family could alone have ever saved up enough money to have started out in business for himself.

I own my success entirely to family team work of this kind. My two brothers and myself had each only a few hundred dollars, but we pooled our capital and started a little clock and suit factory. One brother stayed in the workshop, and saw there was no leading among the work people, and that the work was properly done. The other brother did the buying and kept the books, and went on the road and sold the goods. In every department you see we had someone who was vitally interested in getting the very best results for the least money. Also we had absolute honesty in every department, and such service as you give yourself you cannot hire anyone else to give you; so, of course, we made a success. We couldn't miss it working together that way, but if each one of us had gone off by himself, as you gentle families do, we would all still be poor men."

A family doing team work—that is a commonplace secret of success, isn't it? Yet it is one that, almost invariably wins out. You rarely see a united family that isn't a prosperous family. It is the house divided against itself that is doomed.

You can even narrow down this assertion to the individual family and say that when a poor young couple get married and start their life together, whether they will become well off and happy, or be poor and miserable depends, nine times out of ten, on their ability to do team work, and especially on the wife's ability to lead.

The man, who isn't a financial genius, can make any headway against a wife who is wasteful and extravagant and bitten by the mania to live beyond their means. Nor can any man succeed who has a peevish, fretful, selfish wife who thinks of nothing but her own pleasure, and who stands in her husband's way by refusing to go to live in some place where fortune calls him, or who kills his ambitions and paralyzes his energy by always opposing every new scheme and threatening a wet blanket over every fresh enterprise.

But when the wife keeps up her end of the game by providing her husband with a comfortable, cheery home, where he is fitted and comforted and braced up for the next day's fray; when the wife is willing to economize and sacrifice so that the money may go back into the business instead of into fine clothes and automobiles; when she is just as interested in her husband's affairs as he is, and as keen for success, why that couple can't fail—they are doing too good team work.

And it takes team work to make a happy home, as well as a prosperous one. This will be startling news to a lot of men who seem to think that making a happy home is exclusively a feminine occupation, like having babies.

The place where team work in families is most needed, however, and where the lack of it is most disastrous is in rearing children. It takes both father and mother, standing shoulder to shoulder to do this properly—and alas, in how few households do you find this desirable condition of affairs.

Sometimes there is practically no father, only a man who pays the bills, who is so much engrossed with business to get acquainted with his children, or to try to guide them, or to decide anything about their future. He leaves that to their mother, and no matter how fine a woman she is, she is incapable of filling the bill and being both mother and father to them. Children need a man's experience of the world, a man's outlook, a man's firmness, a man's protection in the hour of their greatest need, and in starting them in life—otherwise, God wouldn't have bothered to make fathers—and if they miss this they start handicapped, as is proven by the fact that so many widows' children go wrong and amount to nothing.

Sometimes a man tries to do his duty by his children and is balked by a weak silly mother who cannot bear to see her darlings disciplined. Father tries to curb a boy's extravagance, mother scribbles the housekeeping allowance to give him money. Father tries to protect a foolish girl from a bad man. Mother secretly connives at their meetings because the girl weeps, and she tries to teach the children obedience, and respect for authority and some sense of duty. Mother pities them when they are denied anything and connives at their disobedience and sides with them against their father, whom she unconsciously teaches them to hate and to despise.

What is the result?—The hoodlums, the wayward sons and daughters, the lazy, undisciplined, uncontrolled youth of the day who bring their parents' heads in sorrow to the grave.

Whenever a father and mother disagree as to the wisdom of some particular course with their children, they should do so in private. They should present a united front to the youngsters. There should be no appeal from Caesar to another. It is only by this kind of team work that family discipline can be enforced, and children successfully reared.

LETTERS TO "THE TIMES."

Victorization Discrimination.

LOS ANGELES, June 24.—[To the Editor of The Times:] I have read with interest the literature dispensed so courteously by the Anti-Victorization League, and have given thoughtful consideration to their arguments in favor of the law they wish passed.

While according them all credit for honesty of purpose and sincere love of our animal friends, it seems to me only just to include in this protective measure all animals. Class legislation has always been a failure, and the State of California, hundreds of operations are performed on cattle, swine, sheep, not forgetting the rooster and the duck, without any attempt at anesthesia, and one has but to witness one of these operations performed on our ranches or in our poultry yards to be assured that the poor animal does undoubtedly suffer great pain.

Should not the suffering of an animal in the hands of a layman, be as much a matter of concern as that of one in the hands of a physician or laboratory worker? If we are to have this legislation, let us use our common sense and do away at one stroke with all the suffering that is caused by the operation of the law.

MICHAEL CREAMER.

Strip-Hanging Blockade.

LOS ANGELES, June 24.—[To the Editor of The Times:] I don't want to kick. I am a married man and I know the virtue of practicing an optimistic philosophy about life in general. But as I know there wasn't a kick in the pants when I got into my chest, I am going to take a chance and say a few things about something which has finally got me into a condition where I am quarrelsome, peevish, disgusted and generally out of plumb.

I don't know what the salary of a city editor is, but if it is anything like the one my wife talks about to kick, I am a married man and I am in a position to appreciate what I have to say about the rank and file of city editors on our street cars. There's the house I've got to kick, and though I don't wish you any bad luck, I hope you have experienced that thrilling experience of hanging on the edge of a Hollywood street car, flying through the air half on solidly and half in the evening atmosphere, while you stare up at the front of the car and wonder why there's nobody in the empty seats.

After the car whizzes through a couple of tunnels you happen to get a squirt at the conductor and find that right next to him are a couple of rotund specimens of the fair sex chomping up the side like a log jam in a river. You can't blame the conductor. Maybe he's a married man, too, and there's nobody inside who seems to have enough flexibility of disposition to pass by the blockade.

If you live in Hollywood and work in the city, I've said enough. Can't some legal or other steps be taken to protect commuters from this daily inconvenience on the rear ends of our street cars?

Harding, a Typical American.

LOS ANGELES, June 24.—[To the Editor of The Times:] Warren G. Harding is a typical American, an American of Americanism, like Lincoln, a self-made American, who grew up from the rich soil of democracy. His life, conduct and character have been fixed in the mold of true Americanism, of which President Wilson and the Democratic party are the avowed negations and antitypes. Senator Harding is religious in the

spirit of "religious liberty," declared by the Constitution.

He is a clear thinker and a careful student, a genuine product of our common education.

He is a faithful believer in the general welfare of the people. He has worked conscientiously for the common good of all the people. He is a brother American, and

stands for the Union, one and indivisible.

He is a statesman who believes in the blessings of liberty. He is a Republican, and stands for the truth in political deliberations.

He is a strong man with a strong will power, like Lincoln, in support of established justice. He will grant to each person an

ACCUSES EX-ARMY MAJOR.

Mrs. Irene Brewer, who is seeking a divorce from James A. Brewer, formerly a major in the United States Army, declared in Judge Taft's court yesterday that Mr. Brewer some time ago overdrawed their joint bank account and she had to go to work and earn the money to make the account good.

"He admitted to me he had used the money to pay his gambling debts," she said, "and to spend on other women in France."

WILL HONOR BOY SCOUTS.

At 4 o'clock this afternoon the Los Angeles Council of Boy Scouts will give a farewell rally at Normal Hill Center in honor of the three local boys who start tomorrow for London, England, to represent this city at the International Boy Scout Convention to be held there from July 25 to August 7. The Los Angeles boys chosen for the trip are Walter Westcott, aged 17, eagle scout; Carl Mc Elroy, aged 14, star scout; and Henry Gunning, aged 15, also a star scout.

Tomorrow morning at 9 o'clock, the three chosen scouts will be given a second farewell, when they depart from the Salt Lake Railway station.

The Boy Scout organization of America will be represented at the London Conference by 250 members, and delegates are expected from almost every race and nation in the world. The United States delegates

dishes and chop-sticks were used, and there were incense burners filled with sandalwood. Twelve guests were there.

To greet her friends after a year's absence in school at Washington, Miss Mary Call is entertaining at a large tea at the Los Angeles Country Club this afternoon. The room is gay with masses of summer flowers filled with pink roses, gladioli, and delphinium predominating. An Hawaiian orchestra will play native music, and Miss Call is assisted by Misses Jean Dulin, Elsie Wright and Katherine Fredericks.

Off to the Beach.

Mrs. Charles H. Sharp and her son-in-law and daughter, Mr. and Mrs. Everett H. Beaver and their children, are leaving this morning for next week for their summer home at Santa Monica.

Mr. and Mrs. Newport.

Mr. and Mrs. F. P. Newport of 610 South Serrano street are leaving today for a six weeks' trip to Alaska, motorizing north. They will stop in San Francisco to attend the Democratic National Convention, then will go to Oregon and Washington, visiting Lake Louise and Calgary and sailing from Seattle for Alaska. Admiral and Mrs. N. L. Twining are accompanying Mr. and Mrs. Newport as far as San Francisco. Mr. Newport expects to spend a week or two days on a hunting and fishing trip while in Alaska. Eastern friends will occupy the Newport home during the summer.

Convalescing.

Friends of Mrs. Kate Greenleaf Locke of Pasadena will be relieved to learn that she is convalescing after a sudden and very serious illness. She is at the Pasadena Hospital, and if her condition continues to improve will leave next Tuesday for the East. She was suddenly threatened with pneumonia on the eve of her intended departure for New York and Long Island.

Mr. and Mrs. Harrison.

Mrs. and Mrs. William Preston Harrison were yesterday entertaining friends from Chicago who are on their way to the National Democratic Convention in San Francisco. Their brother, former Mayor Carter H. Harrison, and Mr. and Mrs. Oscar Meyer and Miss Elsie Meyer were in the party. They motored through Topanga Canyon and dined together later. Mr. and Mrs. William Preston Harrison are to leave the middle of next month for Chicago over the Hawaiian Pacific Railroad. They will stop en route at Vancouver, Banff and Lake Louise, and will be gone until after the Presidential election in November.

Dr. Spinks.

Dr. W. H. Spinks is to entertain at dinner at the Los Angeles Country Club on Saturday evening, and will have places for fifty guests.

To Celebrate.

Mr. and Mrs. H. M. Haldeman are to celebrate at a dinner and dancing party at the Los Angeles

Country Club on Monday evening, July 5.

Pasadena Furniture Company's

Reorganization Sale

Entire Furniture Stock

Rapid growth of this business makes re-financing necessary, so in order to raise a large cash sum in the shortest possible time we have reduced the price on every piece of furniture contained in our ten-floor assortment.

Even if you are not ready to purchase we invite you to inspect our values and make comparisons. Orders placed now can be held for future delivery. Our trucks make daily trips to Los Angeles.

To greet her friends after a year's absence in school at Washington, Miss Mary Call is entertaining at a large tea at the Los Angeles Country Club this afternoon. The room is gay with masses of summer flowers filled with pink roses, gladioli, and delphinium predominating. An Hawaiian orchestra will play native music, and Miss Call is assisted by Misses Jean Dulin, Elsie Wright and Katherine Fredericks.

Off to the Beach.

Mrs. Charles H. Sharp and her son-in-law and daughter, Mr. and Mrs. Everett H. Beaver and their children, are leaving this morning for next week for their summer home at Santa Monica.

Mr. and Mrs. Newport.

Mr. and Mrs. F. P. Newport of 610 South Serrano street are leaving today for a six weeks' trip to Alaska, motorizing north. They will stop in San Francisco to attend the Democratic National Convention, then will go to Oregon and Washington, visiting Lake Louise and Calgary and sailing from Seattle for Alaska. Admiral and Mrs. N. L. Twining are accompanying Mr. and Mrs. Newport as far as San Francisco. Mr. Newport expects to spend a week or two days on a hunting and fishing trip while in Alaska. Eastern friends will occupy the Newport home during the summer.

Convalescing.

Friends of Mrs. Kate Greenleaf Locke of Pasadena will be relieved to learn that she is convalescing after a sudden and very serious illness. She is at the Pasadena Hospital, and if her condition continues to improve will leave next Tuesday for the East. She was suddenly threatened with pneumonia on the eve of her intended departure for New York and Long Island.

SEASON'S CAMPAIGN WITH
EARLY APRICOTS.POMONA, June 24.—With
almost a full force at work, the
cannery today opened the
season's campaign in running
through a large shipment of
apricots from the San
Bernardino Valley. Packing
of the local crop will commence
in a few days. Although the
quality of the fruit is above
normal.The fruit is running larger than
usual, in many instances six
apricots to a pound. Because
of the fact that very little
of the fruit is to be dried this
year, the high prices that marked
the early spring campaign have
fallen until now the market is
considerably higher than last year.

GEMMELL STILL MISSING.

POMONA, June 24.—Not the
slightest clue has been obtained
which would aid in solving the
mysterious disappearance of
Charles Gemmell, well-known
Pomona man who has been
missing since last Saturday
morning. He left the Covina
Garage, where he is employed,
and was last seen in the
vicinity of the Hotel del Coronado
at San Diego.Great things at "Hotel del Coronado"

COBB MAY NOT PLAY BALL AGAIN.

CHICAGO (Eng. June 24.—) According to information in baseball circles here the name is in danger of losing its most picturesque figure and "the greatest player of all time," Ty Cobb, the Georgia Peach.

In a game here June 6, Cobb collided with Right-fielder Plagstad and sprained his knee. It now develops that the tendons were pulled and the Peach may be out of the game permanently.

Secretary Von Ohl of the Athletics, who is a very close friend of Cobb, says The Peach told him he probably could not play ball again.

Cobb took all sorts of desperate chances in the field and on the bases through many seasons and never suffered a severe injury, only to be laid out in a collision in which the participants came together indirectly. The Peach has never hesitated to take chances with spikes in his sensational base-running, and always escaped with minor injuries when the odds were all in favor of him getting punctured and torn to ribbons.

DETROIT, June 24.—Published reports that Ty Cobb may be permanently out of baseball as a result of a recent injury to his knee, were refuted here tonight by Dr. William E. Keene, club physician, of the Detroit Americans.

BENGALS SPANK SEALS MUCHLY.

Vernon a Little Too High Class for Visitors.

Jim Scott Proves Ineffective in the Pinches.

Crutch Comedians Again Hop on Umpire Holmes.

BY ED O'MALLEY.

The Tigers snarled back at the Seals yesterday afternoon and bit them something like 1 to 1. It was hardly in the cards yesterday for Charley Graham's phantom-pennant winners to tame the jungle babes.

San Francisco played like a high-class team that had gone rusty and failed to make the best of promising opportunities. Jim Scott, who is regarded as the Seals' pitching ace, slanted them over in a rather listless, indifferent manner and to add to this demerit, he was given slovenly support. Jim fared pretty well for the first two innings and then something happened. It occurred in the third canto and just about put the game in lavender. Shellenback, the first man up, bounded one high in front of the plate, which Sam Agnew gobbled and threw him out to Koerner.

CHAD HITS 'ER.

Johnny Mitchell, displaying a keen eye and infinite patience, waited Scotty out and was rewarded with transportation. High camouflaged to plant one safely in right, but was forestalled by Caveny to Koerner.

Sureshot Chadbourne bundled a Texas Leaguer betwixt and between Caveny and Fitzgerald, scoring Mitchell and scudding to second on the throw in. Bobby Fisher tried to knock Walsh off his underpinning, but that worthy grabbed the ball and pegged it on a sharp, difficult bound to Koerner, who grasped it. The pill rolled to the bleacher fence and Chad tottered home. Agnew sending the pitcher to the well once too often, overthrew second base to catch Fisher, who was off the sack and away.

Privy dived for third, where he landed safe. Babe Horton lynn eyed four of 'em and pronounced to first. Babe tricked Scott into leaving the ball to Koerner, who slammed it to Welsh to nab Fisher off third, but Privy knew a thing or two and touched the sack in safety. Then Nap Morse sent thrills of exultation, delight up and down fan-don's back with a corking single along the third-base line, scoring Fisher and Horton. The seal would even have been a base hit in Ireland. Red Smith was an easy out, Corhan to Koerner. Here, the Tigers saw Shellenback a three-run lead and any time Shell faces such a proposition, he is sure a tough bird to best.

FAILED TO PAROLI.

Apart from the seventh session the visitors kept sniping away at Shellenback, but they could not press their clouts and consequently little home cleating was executed by Corhan and his huskies. In the eighth canto a squall threatened for a moment to be storm, but the Tiger hurler turned his belt and wrote himself into a streak of sunshine just when the clouds were the thickest. In this little Seal flurry, Agnew started things off with a single to left.

O'Connell, batting for Scott, walked and both were advanced by a passed ball. Fitz sent a sacrifice fly to High, scoring Agnew. Corhan tried to bruise the old apple, but the bat didn't make the mistake of trying to wait Shell out, with the result that he maimed the atmosphere. Fisher killed the wheel shooting match for Schick lifted to Morse and Agnew died in the arms of Babe Horton as the fifty first sacker grabbed Johnny Mitchell's throw. When Koerner hit to center, the ball got by Chadbourne and O'Connell scored.

Dignitists chuckled 'em over for the Seals in the eighth and looked as if they were a whole materia medica of effectiveness. The crutch comedians again got in their work on Umpire Holmes in the opening inning when that luckless worthy called Johnny Mitchell out at the plate on Caveny's peg to Agnew. Many of the spectators thought Johnny beat the throw, but there was one man who didn't and his single word in this case would easily overwhelm any Niagara of protest that could be upped on his head. The score:

Going Up After Maj. Schroeder's Altitude Record.

This party is none other than Mr. Jenne, who hails from the great Northwest and is down here to see what he can do toward getting place on the Olympic team. He has a record better than thirteen feet in the pole vault and is shown here clearing the bar at twelve feet when just off the train.

ATHLETES ALL ON THE JOB.

Everybody Seems to be Ready for the Great Olympic Games Tryout.

With the exception of one or two stragglers all the handsome young men who are to compete in the western track and field tryouts at Pasadena tomorrow are here and ready to go. Trainer Frank Foster and his skilled collection of athletes from the Olympic Club of San Francisco pulled their freight from the northern burg Thursday night and arrived yesterday morning.

That is to say, those who weren't already on the scene of combat arrived. The greatest athlete in the world, Morris Kirksey and Mr. Dink Templeton of Stanford who will wear the "Winged O" have been in these parts for some time, and causing little icicles to gallop madly up and down the spinal columns of all rivals.

Eldon Jenne of Washington State College, the guy who has been imperiling the world's record in the pole vault every time he competes in a meet, had his first workout at Pasadena. Having arrived in the early morn, Jenne was not supposed to be in the pink of condition. But a little think like that doesn't bother the up-Stater. He went right out in public and cleared 12 feet without being an eyelash. It is believed that he has the makings of a good pole vaulter.

However, Jenne may be forced to do some tall stepping with these boys Norman Grease of Stanford, Volker of the Olympic Club right on his tail. One regret is Dr. Ralph Spearow of the Multnomah Club is unable to compete. The vaulting parson is credited with having cleared 13 ft. 4 in. over uprights set alongside of his church. The Wings O have been in these parts for some time, and causing little icicles to gallop madly up and down the spinal columns of all rivals.

Bill Hayward of Oregon is the authority for Sparrow's leap. Had it been made in a regular meet the figure would have been a new world's record. Jenne's record is 13 ft. 1 in. made in the Northwest intercollegiate conference meet.

The greatest problem that has faced the dopsters is picking a winner in the 100 and 220-yard dashes. None of the wise ones wants to risk his reputation. All are very secretive. Also very reticent.

From Frank Foster was obtained the information that Kirksey, Fadcock, Haymond and Williams all took good to him. Information dispensed by Bill Hayward was a bit more to the point. Says Bill,

"The man that beats Williams in the 100 will be the man that wins the race."

In the 220 the experts concedeaddock of U.S.C. the edge because of his powerful finish.

No training will be done on the Tournament Park track today. Ray Call has ordered it closed and will put on the finishing touches for tomorrow's classic.

Concerning the 1924 International Olympic Games, Mayor Snyder and the City Council yesterday joined in inviting the international committee to hold the eighth Olympic games in Los Angeles in 1924. Bob Weaver was appointed to personally convey the official invitation of the city of Los Angeles to the committee at Antwerp, Belgium.

In his letter of invitation Mayor Snyder calls attention to the memorial colosseum to be built at Exposition Park, and which would be able to accommodate 75,000 people to witness the Olympic games. The Mayor said last night: "I believe that Los Angeles stands a fine chance of winning this great meet. If it comes it will be the greatest advertisement the city has ever had. More than 40,000 people attended daily the last Olympic meet, and at Exposition Park we can provide seats for 15,000 more than that number."

YOUNG GOTCH IS THROWN.

Walter Miller Shows His Mastery by Flopping the Greek Easily.

BY PAUL LOWRY.

For twenty-six minutes the Miller-Gotch wrestling bout at the L.A.C. last night was a good football contest. During that time the rivals acted for all the world like a pair of varley thummen, playing a bit high of course, but indulging in such playful antics as eyeball gouging, ear twisting and head butting.

For the other seven seconds that the mixup lasted Young Gotch Paleologus, descendant of Grecian blue blood, received a genuine lesson in the inspiring art of wrestling. Miller presented Gotch with his head, and the Greek fell into the trap. He took a head lock. Quik as a flash, Miller secured a crotch hold, lifted Gotch from his feet, grabbing a half-Nelson as he did so and dopped his man to the floor. It was a matter of three or four seconds before Referee Harry Grayson was tapping Miller on the back, notifying him of his victory.

Gotch was the aggressor at all times with the dirty tactics. Miller complaining to Referee Grayson, who could only caution the Greek to stop it. Grayson was substituting for Pat Higgins, who had been selected to referee the brawl, but the Antipodean wisely withdrew and Grayson was chosen at the last moment. Pat was born with the wisdom of a Solomon.

TY COBB MAY NOT PLAY BALL AGAIN.

CHICAGO, June 24.— Ac-
cording to information in base-
ball circles here the game is
in danger of losing its most
picturesque figure and the
greatest player of all time,
Ty Cobb, the Georgia
Peach.

In a game here June 8, Cobb
collided with Right-fielder
Fingstead and sprained his
knee. It now develops that
the tendons were pulled and
The Peach may be out of the
game permanently. Secretary
Von Ohl of the Athletics, who
is a very close friend of Cobb,
says The Peach told him he
probably could not play ball
again.

Cobb took all sorts of des-
perate chances in the field and
on the bases through many
seasons and never suffered a
severe injury, only to be laid
out in a collision in which the
participants came together in-
directly. The Peach has never
hesitated to take chances with
spikes in his sensational base-
running, and always escaped
with minor injuries when the
odds were all in favor of him
getting punctured and torn to
ribbons.

DETROIT, June 24.— Pub-
lished reports that Ty Cobb
may be permanently out of
baseball as a result of a re-
cent injury to his knee, were
refuted here tonight by Dr.
William E. Keene, club phy-
sician, of the Detroit Ameri-
cans.

BURHILL, (Eng.) June 24.— Wal-
ter Hagen and Jim Barnes, Ameri-
can professionals, played the con-
cluding half of the qualifying round
for the British golf championship
here today. Both showed better
form than during the first half yes-
terday at Weybridge, Hagen going
around in 71, making his total score
147, and placing him fourth on the
list.

Barnes' score today was 74,
making his total 155, and placing
him fourth on the list of those
who qualified.

Jim Scott Proves Ineffective
in the Pinches.

Crutch Comedians Again Hop
on Umpire Holmes.

BY ED O'MALLEY.

The Tigers snarled back at the
Seals yesterday afternoon and bit
them something like 6 to 3. It was
hardly in the cards yesterday for
Charley Graham's phantom-pennant
winners to tame the jungle babes.
San Francisco played like a high-
class team that had gone rusty and
failed to make the best of promising
opportunities. Jim Scott, who is
regarded as the Seals' pitching ace,
slanted them over in a rather list-
less, indifferent manner and to add
to this demerit, he was given elevan-
ty support. Jim fared pretty well
for the first two innings and then
something happened. It occurred
in the third canto and just about
put the game in lavender. Shellen-
back, the first man up, bounded one
high in front of the plate, which
Sam Agnew gobbled and threw him
out to Koerner.

CHAD HITS 'ER.

Johnny Mitchell, displaying a keen
eye and infinite patience, waited
Scotty out and was rewarded with
transportation. High seemed to
slant one safely in right, but was
foretold by Caveny to Koerner.
Sureshot Chadbourne bundled a
Texas Leaguer betwixt and between
Caveny and Fitzgerald, scoring
Mitchell and sending to second on
the throw in. Bobby Fisher tried
to knock Walsh off his underpin-
ning, but that worthy grabbed the
ball and pegged it on a sharp, diffi-
cult bound to Koerner, who grease-
pipped it. The pill rolled to the
bleacher fence and Chad toddled
home. Agnew, sending the pitcher
to the well once too often, over-
throw second base to catch Fisher,
who was off the sack and away
Priv darted for third, where he
landed safe. Babe Borton lnx
eyed four of 'em and promissed to
first. Babe tricked Scott into hear-
ing the ball to Koerner, who
slammed it to Walsh to nab Fisher
off third, but Priv knew a thing or
two and touched the sack in safety.
Then Hap Morse sent thrills of ex-
quisite delight up and down fan-
dom's back with a corking single
along the third-base line, scoring
Fisher and Borton. The swell
would even have been a base hit in
Ireland. Red Smith was an easy
out, Corhan to Koerner. Here, the
Tigers gave Shellenback a three-run
lead and any time Shell faces such a
proposition, he is sure a tough bird
to beat.

FAILED TO PAROLI.

Apart from the seventh session the
visitors kept sniping away at Shel-
lenback, but they could not press
their clouts and consequently their
home clearing was executed by
Corhan and his huskies. In the
eighth canto a squall
threatened for a moment to be a
storm, but the Tiger hurler turned
his belt and worked himself into a
streak of sunshine just when the
clouds were the thickest. In this
little feat, hurry, Agnew started
things off with a single to left.
O'Connell, batting for Scott,
walked and sixth were advanced by
a passed ball. Fitz then sent a
sacrifice fly to High, scoring Agnew.
Corhan tried to bruise out old ap-
ple, but the bat didn't take well,
for he squibbed to Shellenback who
sent the ball to De Fortrier and
O'Connell was nailed at the plate.
Caveny fell a victim to the Fisher-
Borton Express.

Controlly and Koerner busted out
singles to center in the first of the
ninth and a mar's-eye rally loomed
in the distance, but Walsh made the
mistake of trying to wait Shell out,
with the result that he maimed the
atmosphere. This killed the whole
shooting match for Schick lifted to
Morse and Agnew died in the arms
of Babe Borton in the fifth first
sacker grabbed Johnny Mitchell's
throw. When Koerner hit to center,
the ball got by Chadbourne and
Connolly scored.

Digitalis chuckled 'em over for
the goals in the eighth and looked
as if he were a whole materia
medium of effectiveness. The crutch
ended again got in their work on
Umpire Holmes in the opening
inning when that luckless worthy
called out Johnny Mitchell out at the
plate on Caveny's peg to Agnew.
Many of the spectators thought John-
ny beat the throw, but there were
one man who didn't and his single
word in this case would easily over-
whelm any Niagara of protest that
could be spilled on his head. The

(BY A. P. NIGHT WIRE.)
NEW LONDON (CT.) June 24.—

In contrast to the gay scenes of
previous years, New London main-
tained a dignified mien tonight on
the eve of the annual Yale-Harvard
regatta.

The air of sedateness, however,
did not obtain at the rival crew
quarters, several miles up the
Thames, for during the afternoon
there were two impromptu races
in which Yale was twice victorious.
In the race for combination
eights, composed of substitutes and
others, who will not compete in
the events of the regular regatta,
the Yale crew defeated the Har-
vard oarsmen close to two lengths
over a one-mile course. The time
was: Yale, 6:31; Harvard, 6:38.

In the half-mile race for gentle-
men's crews, consisting of former
varsity crews, Yale won in 2:39,
while Harvard finished in 2:35.

The regatta day program, con-
sisting of three races, opens with
the contest for freshman eights, and
will be two miles down stream, start-
ing at 10:45 a.m. (eastern stand-
ard time.) The junior varsity eight
ear crews will match Harvard's
over the same course at 11:15
o'clock.

The varsity eight will row four
miles upstream at 3 o'clock.

Service in the attachment was
taimed through Deputy Sheriff Bis-

Which Prevents Serious Fires

FIRE Detection Service is eliminating serious fires by making impossible the neglect of small blazes. Twenty-four hours a day trained operatives in A. D. T. central stations are kept in continuous touch with every fire-bay in F. D. S. protected premises. The combination of F. D. S. precision instruments and the experience and judgment of the A. D. T. central station personnel, constitutes a safe and infallible fire protection.

An alarm always goes into the Fire Department within the first few seconds after the outbreak of a blaze, when fire-fighting skill can avoid all but negligible losses from fire, or smoke and water damage.

TENNIS TOURNAMENT.

(BY A. P. NIGHT WIRE.)
DETROIT (Mich.) June 24.—With Miss Corinne Gould of St. Louis, the title-holder, and Miss Zinderstein of Boston, leading in their respective matches, rain interrupted the semi-finals in the women's national clay court tennis tournament singles this afternoon.

Miss Gould, opposing Miss Ballin of New York, won the first set, 6-2, and had a one-game advantage in the second, which stood 3-7, when play was stopped. Miss Zinderstein won her initial set from Miss Tennant of Los Angeles, 7-5, and took the opening game, the only one played, in the second set.

Play will be resumed Friday with today's scores standing for the matches.

BABE RUTH SOAKS
ANOTHER HOME RUN.

(BY A. P. NIGHT WIRE.)

COLUMBUS (O.) June 24.—

"Babe" Ruth, the New York Yankees' home run king, made a home run today in an exhibition game which the Yankees won from the Columbus Panhandlers, a local semi-professional league team, 10 to 1. In batting practice prior to the game, Ruth hit six balls out of the lot. He pitched the last inning for the victors.

VANITIE SCORES
FOURTH VICTORY.

(BY A. P. NIGHT WIRE.)

NEWPORT (R.I.) June 24.—The

sloop Vanitie defeated the Resolute today in their eleventh race in the elimination series for the honor of defending the America's cup against the Shamrock IV, leading at the finish by 42 seconds.

Both yachts at the time were on a south-westerly course. The race was over a twenty-mile windward and leeward course in a seven-knot breeze, over the same distance.

The first leg was to the windward ten miles, and the return to leeward, over the same distance.

The race was close from the start to finish, although the Vanitie, which got a windward berth and the advantage over the Resolute at the start, maintained her lead throughout. On the windward stretch, after two lengthy boards, one inshore and one offshore, the Vanitie came about forty minutes after the start, and showed her superiority in position by crossing the Resolute's bow to windward.

ASK FOR MORE REROUTING. Business Men Urge Two Further Changes to Give Northwest Better Service.

Two important changes in the present routing of lines of the Los Angeles Railway were requested yesterday by a committee of the Business Men's Co-operative Association, consisting of Gilbert R. Wright, Herman W. Frank, W. C. Galbraith and Managing Director George M. Babcock.

The business men asked that the West Sixth street cars be restored to their former route to give through service to and from Radisson Springs via Fifth street; that Western avenue cars be routed north on Spring street from Seventh, looping at the Temple Block to Main street, and thence to the present terminal.

The members of the committee stated that this action is necessary to secure adequate and direct car service from the northwest section of the city through the business district, north of Seventh street. He has Chief Engineer Osborne was directed to see if a plan along the lines suggested by the members of the committee could be worked out, but the members of the board pointed out that to prevent traffic congestion at Seventh street and Broadway and Seventh street and Spring streets the elimination of car line curves at these two points was absolutely necessary.

The board yesterday authorized the Los Angeles Railway to discontinue service and remove the tracks on certain parts of Temple street and Edgeware road; also on West Eighth street beginning at Eighth and Hill streets to Seventh and Lake streets.

JOAQUIN RIVER GIVES UP DEAD.

Los Angeles Youth Last Seen
Camping on Bank.

Discovery Made in Dragging
by Rieman Searchers.

Searchers dragging the water of the San Joaquin River near Herndon yesterday for the body of Alva Rieman, who was drowned Sunday while in bathing, found, not Rieman's corpse, but the unidentified body of a 14-year-old boy, who may be Willard Gwin, of Los Angeles, whose mother recently appealed to the Fresno police, asking them for aid in locating her missing 14-year-old son, who, when last heard from, was camping on the bank of the San Joaquin River.

The body found yesterday has evidently been in the water for about a month. It was found by A. C. McNeill and Louis Llesman, and was lodged beneath some brush in a large pool. The remains were taken in charge by R. C. Jay, Coroner of Madera county, who thinks the body may possibly be that of Arman Kirkorian, a Fresno youth, who was drowned about a month ago, while in swimming.

ON LIQUOR CHARGE.

Charles C. Olson, said to be secretary of the Walters' Union, and his wife, Clarice, living at 1519 East Jefferson street, when the revenue officers have been chasing for some weeks, were arraigned before U. S. Commissioner Long yesterday on the charge of violating the Volstead Act. A quantity of doctored gin and beer was found on their premises. It is declared. They are charged with selling four drinks of whiskey to J. L. Blake and J. O. Crawford, for which they charged 75 cents each. The bond was fixed at \$500 each, and the hearing set for July 15.

Jesus Delgado of Santa Barbara was before Commissioner Long yesterday on the charge of having in his possession a still without having it registered under the law. His bond was fixed at \$1500, and Delgado was placed in the County Jail.

Getting Your Photoplay Actually Screened

In constructing photoplays, you must talk the language of the producer. He must be able to tell without effort, first, that you have a good idea and, second, that you have given it to him in workable form.

If you have obscured the merit of your idea by a clumsy presentation, you have reduced to pretty nearly zero your chance of getting your play actually on the screen.

It is by teaching you to write professionally that the Palmer Plan in Photoplay Writing proves itself by all odds the surest, quickest way to recognition in motion pictures. Its entire organization—Faculty, Advisory Board and Contributors—is made up of men and women who have had years of experience in the big studios. Furthermore, you may depend upon a valuable amount of inspiration from this course, for our interest in your success becomes a personal matter with us the instant you enroll.

The following motion picture authorities constitute the Palmer Advisory Board—Cecil B. De Mille, Thomas H. Ince, Lois Weber and Rob Wagner.

Palmer Photoplay Corporation, Department of Education, 235 E. W. Hoffman Building, Los Angeles, Cal. Please send me, without obligation, your new book, "The Secret of Successful Photoplay Writing." Also "Proof Positive."

DUG AND MARY TO COSTAR IN
FEATURE PICTURE.

By Grace Kingsley.

All of the world loves a lover, and when those lovers are two of the most famous film folk in the world, and moreover when they propose to costar together in a picture, why naturally the announcement is a sensation. That's exactly what Douglas Fairbanks and Mary Pickford, who are now honeymooning together in London, intend to do according to private advice received by friends of theirs here. So you see these two devoted ones won't be separated even in the studio.

No, they're not going to do a stroke of work while they're abroad. But when they get home, they're going to appear together in a film version of Johnston McCully's "The Curse of Capistrano," published serially in a popular magazine.

However, it seems as if Doug may have rather the best of it in a way, as he will play a dual role. But perhaps they'll put enough of Mary in her own sweet person, to make up for Doug's double impersonation.

The story is of the period of 1858, and has to do with a roving pirate who piled his nefarious calling along the Pacific Coast. The double role has an entirely new twist to it, inasmuch as you do not know that the two characters are really one and the same person until the last reel reels itself off. It is likely that Vic Fleming will direct this, as he has other features of Fairbanks'. Five thousand dollars was the consideration paid for the story.

Eddie Lowe Here.
Eddie Lowe is in town, and is expected to reveal his professional connections in the near future. In the meantime he dines occasionally at the Athletic Club with a radiant young lady. It is reported he will probably be with Metra.

Political Note.
May Allison's sister, Mrs. Neil Wright, who is to attend the Democratic convention as a delegate from Huntington, Tenn., has arrived in town and is visiting Mrs. Wright at the star's home in Beverly Hills. Miss Allison and Mrs. Wright look much alike even if the actress's calling is different and she isn't a politician. But on second thoughts, isn't she?

Dorothy Devore with Ray
You just can't keep those little Mack Bennett babies quiet. From getting famous. They will bob up above the waves of adversity, let the storm rage as it may. Now it's Dorothy Devore, formerly with Bennett, lately with Christie, who is climbing the hill to dramatic fame through being engaged yesterday to Charles Ray's leading woman in George M. Cohan's "Forty-five Minutes from Broadway." She succeeded Ann May, who holds the record for playing more leads with Mr. Ray than any other young lady of the films.

Joseph De Grasse will direct, and the others in the cast are Donald MacDonald, Harold Lloyd, William Courtright, Eugene Reusser, Hazel Huweli and May Foster.

Harold Lloyd Signs.
The world certainly enjoys a good laugh, and is willing to pay for it, and another bit of evidence in support of the old axiom is just at hand in the form of word to effect that Harold Lloyd has just signed up a new long-term contract with Pathe and the Associated Exhibitors. Under the terms of this agreement, Lloyd is to receive \$250,000 for each picture. As Mr. Lloyd is one of the speediest of the comedy makers, it may be readily understood that he is due to get a lot of money.

Mr. Lloyd returned from New York Tuesday, and smilingly started right in to begin to earn his money by commencing a new comedy at his Culver City studio.

Bebe Daniels Recovers.
Looking a little pale, but very interesting, Bebe Daniels, Realart star, who had the bad luck to become ill just as she was to commence work at Morosco's Lasky studio, on her first Realart picture, has returned home from the hospital. Miss Daniels will begin work on her picture, entitled "You Never Can Tell," Monday, with Chet Franklin directing. Jack Mulhall will be her leading man.

Alf Goulding Weds.
Without much of a single day's work, but thrifflily choosing Sunday as their wedding day, Alf Goulding, Rolin comedy director, and Marcela Desmond, leading woman with Harry Pollard, were married in this city.

Miss Desmond is a very pretty young girl who is engaged to be married to a film company, and who bids fair to be one of the leading comedienne. The happy pair took an evening's honeymoon and dined at Venice.

"Married Life" Successful.
Married life is successful—anyhow as a film—and Mack Bennett is a happy man these days. His new picture "Married Life"—a War Picture—soon to be shown at the Kinepolis, has made 'em laugh so hard even in sophisticated old New York that it has been demolishing all records heretofore established by film comedies shown at the Strand.

"Merchant" at Little Theater.
"The Merchant of Venice" is to be put on at the Little Theater tonight by Frank Egan's pupils. Lorraine Walker will play the role of Portia.

Metro Engages Writers.
Waldemar Young and Hayden Talbot have been engaged as writers of Metro's scenario staff. Mr. Talbot is famous as writer of a number of successful plays, and Mr. Young's efforts have been confined almost entirely to the screen.

Lillian Jeffries Engaged.
A taste for public life does run in some families like a wooden leg. Now it's Lillian Jeffries, niece of Jim Jeffries, former heavyweight champion, who is one of the latest aspirants for screen honors. Miss Jeffries is appearing with Wallace Reid in "The Chess School."

Mayo's Repertory.
Frank Mayo just will continue to cut up. A while ago he was talking to Harry Franklin, who is making "The Watchmaker" for Universal, and brought a youth whom he named as his second cousin over to introduce him to the director. Yesterday Franklin said to Mayo: "Frank, was that your second cousin I saw you helping into an automobile in Hollywood last night?"

Players Who Are Achieving New Fame.

Elinor Fair

"Ordinarily, yes; but last night it happened to be my full cousin!"

De Mille to Start.
"The Other Wife" will be the title of the next Cecil B. De Mille special town and is visiting Mrs. Wright at the star's home in Beverly Hills. Miss Allison and Mrs. Wright look much alike even if the actress's calling is different and she isn't a politician. But on second thoughts, isn't she?

Work on the new production will begin the first week in July. Ann Forrest and Forrest Stanley will head the cast.

Society Item.
Colleen Moore is entertaining her brother, who recently graduated from Mercedhurst Academy, at her home on South Grand view avenue.

"Four Horsemen" Cast.
It is likely that Maurice Costello will stage a come-back in the film world in a spectacular fashion. It present negotiations go through he will play the leading role in Rex Ingram's picture for Metro of Ibanez's famous novel, "The Four Horsemen of the Apocalypse."

Others in the cast will be Alice Terry, Rudolph Valentino, Nigel Bruce, Frank Lane, Stuart Holmes and Beindisley Lee. As can readily be seen, it is a notable company.

Washburn Ready to Leave.
Bryant Washburn is ready to start on his European trip. He has finished the final production scheduled prior to his departure. The title of the picture is "Wanted: A Blemish."

Washburn expects to leave here Saturday night and will sail for Europe on the Kronland, July 10.

Sells Kellerman's Film.
The outright sale of his production "What Women Love," starring Annette Kellerman, has just been announced by Lester the producer. The picture deal was completed within a week and arranged the disposal of George Behan's "One Man in a Million." He declares that for the present he will not engage in any more productions, but will confine his efforts to the distributing and exhibiting phases of the business.

Letty to Linger.
"Letty" will linger one day longer than originally anticipated at the Mason. The usual rule of the house will be broken so that a Sunday evening performance will be given. Charlotte Greenwood has been winning the highest favor in this musical show, which affords her even a larger chance for her peculiar comedy talents than "So Long Letty."

Cooling Scene.
An interesting scenic reel is announced for showing next week at the Superba Theater. It concerns the natural wonders of the arctic regions and is called "The Lure of the Northland." The subtitles are taken from Robert W. Service's "The Spell of the Yukon."

Will Visit Parents.
Duane C. Jennings, who is well known locally through his appearances with the Helasco and Morosco stock companies, and who has a prominent role in "Keep Her Smiling," which comes to the Mason Monday night, is to be the house guest of his parents, Mr. and Mrs. Oliver A. Jennings, while in this city. They reside at 2288 West Twenty-first street and are related to Mr. and Mrs. Harry R. Baker, musicians of Los Angeles.

Whistler's Return.
Betty Stokes, the whistling soloist and soprano whose first engagement

its complete producing, office, casting and directorial personnel on the stage. A complete set of dressing-rooms, offices and cutting rooms will also be fitted up on each stage, which will be a slight departure from the usual mode of motion picture stage construction.

Mr. Hermann announces that he intends to produce pictures that will have a big thought behind them. He only recently put on the market "That Something," a photoplay said to be unusual and different in many respects from the everyday five-reel feature. His second production will be a sequel to "That Something," called "Something More," and will be produced under his direct supervision.

ANNOUNCE BUILDING
OF NEW UNIT PLANT.

HERMANN WILL PUT QUARTER-MILLION INTO STUDIO IN HOLLYWOOD.

A new unit producing plant, to cost approximately \$250,000, consisting of three or more stages, is to be erected on the Wilshire boulevard at Santa Monica. This announcement was made today by E. P. Hermann, president and general manager of the Hermann corporation.

One of the stages now nearing completion will be ready for use within a few days, or as soon as a \$15,000 electric generator plant has been installed. Work on the other two stages will be started within a short time, Mr. Hermann said.

It is the plan of the Hermann Film Company to put two or more of its own producing companies at work, and to lease additional space in the studios to independent producing units.

The stages will be so constructed that each separate unit will have trains.

pany, will be launched tomorrow afternoon. On account of the name of the new freighter a number of Hollywood people will attend the ceremony, coming to the harbor on special Pacific Electric

DAILY TRADE TALK.

Federal Reserve Summary; Quake Stimulates Oil Production.

BY CHAPIN HALL.

John Perrin, chairman of the Federal Reserve Board and reserve agent, yesterday released the June report of general business and agricultural conditions in the Twelfth District. This report is carefully compiled from exceptional sources and is an accurate compendium of existing conditions throughout the jurisdiction.

The comparative statements are perhaps the most interesting portion of the review, and these show a well sustained volume of trade, a healthy financial development and excellent crop probabilities. The winter wheat is now estimated at 51,164,000 bushels and indications are that the spring crop will approximate 50,277,000 bushels as compared with 45,425,000 bushels a year ago. Oats in California will produce 1,118,000 bushels, a decline from 14,334,000 bushels in 1919. California produces three-fourths of the barley grown in the district, the crop being estimated at 50,000,000 bushels as compared with 50,000,000 bushels a year ago. In other parts of the district the crop appears about the same.

Range conditions are better than for several years, but the movement of cattle and sheep to ranges has been slow, due to the late springing of early grass. The wool crop is averaging one-half pound lighter per fleece than in 1919. Shortage of cars has resulted in congestion, which automatically curtails lumber production. Building was generally more active throughout the district except in Los Angeles and Portland, where declines of \$711,000 and \$1,125,000, respectively, are reported. The nineteen chief cities of the district, however, aggregated \$14,584,675 in May as compared with \$14,124,527 in April and \$9,304,030 for the corresponding month a year ago.

COTTON AND FRUIT

The cotton crop of Arizona and the Imperial Valley in California is from two to three weeks late, and condition is only 80 per cent of normal, as compared with 90 per cent in 1919. Practically none of this year's crop is as yet under contract, although a few buyers are guaranteeing a minimum price of 40 cents per pound for the coming crop.

The condition of California deciduous fruit is somewhat less favorable than that of a month ago. With the exception of peaches and grapes, most fruit crops will fall short of the record crop of 1919 by from 25 to 30 per cent and will be slightly under the average for the preceding five years. It is now anticipated, however, that the peach crop, though slightly below the crop of 1919, will be about equal to that of any other previous year. Output of grapes and raisins will probably equal, or slightly exceed, the record crop of 1919. The apricot crop will probably equal only about 70 per cent of that of 1919 and the quality of fruit is quite inferior. Opening prices of fresh fruits are in advance of those of a year ago; peaches, for example, now average at \$15 per ton in excess of 1919 prices. Contrary to expectations, canners are offering increased prices over 1919 for the highest grades of fruit requiring large proportions of sugar, and decreased prices for some lower grades, requiring only small proportions of sugar.

RETAIL TRADE GROWS

Sales of representative retail stores in this district averaged, by value, 6.5 per cent greater during May than during April and 22 per cent greater during May 1920, than during May, 1919. Approximately 45 per cent of the increase over May, 1919, was due to increases in price. Sales by representative wholesale firms were approximately 7.5 per cent greater, by value, during May than during April, and approximately 27 per cent greater during May, 1920, than during May, 1919. Approximately 40 per cent of the increase over May, 1919, was due to increases in prices, the proportion of increase due to higher prices in each of the various reporting wholesale lines being as follows: Hardware, 35 per cent; groceries, 40 per cent; dry goods, 40 per cent; and shoes, 45 per cent. As compared with April, prices showed practically no change. Retail firms reported a slight weakness in prices of some goods, but wholesale prices remained firm, with a slight tendency to increase except in the case of shoes, where there was a slight downward tendency. Retail firms are inclined to purchase for current needs only, except on hand on May 31 averaging, by value, 5 per cent less than on April 30, although 52 per cent greater than on May 21, 1919. Collections during May were reported as good in both

LOS ANGELES STOCKS

The market continued exceedingly soft yesterday with most of the activity confined to "Yarn" and Gold Ore. The former opened and closed with sales at \$1.40, but in the interim declined to \$1.24, the low point of the day. Republic Petroleum was down to 32 cents; Union Oil of California to \$1.80 and the Delaware stock to \$21.50. Thirty shares of General Petroleum sold at a \$129.50 basis. There was little change in Liberty's.

RETAIL TRADE GROWS

Sales of representative retail stores in this district averaged, by value, 6.5 per cent greater during May than during April and 22 per cent greater during May 1920, than during May, 1919. Approximately 45 per cent of the increase over May, 1919, was due to increases in price. Sales by representative wholesale firms were approximately 7.5 per cent greater, by value, during May than during April, and approximately 27 per cent greater during May, 1920, than during May, 1919. Approximately 40 per cent of the increase over May, 1919, was due to increases in prices, the proportion of increase due to higher prices in each of the various reporting wholesale lines being as follows: Hardware, 35 per cent; groceries, 40 per cent; dry goods, 40 per cent; and shoes, 45 per cent. As compared with April, prices showed practically no change. Retail firms reported a slight weakness in prices of some goods, but wholesale prices remained firm, with a slight tendency to increase except in the case of shoes, where there was a slight downward tendency. Retail firms are inclined to purchase for current needs only, except on hand on May 31 averaging, by value, 5 per cent less than on April 30, although 52 per cent greater than on May 21, 1919. Collections during May were reported as good in both

A Mortgage on the Heart of California

The vast acres on which the Miller & Lux, Incorporated, bonds are a direct obligation embrace one contiguous tract in the heart of California—446,000 acres extending for fifty-six miles along the San Joaquin River from Newman to Madera. Add to this over a half million other acres, making a combined valuation of \$50,000,000, and you realize the immensity of the security behind

\$12,000,000 MILLER & LUX, INCORPORATED Ten-Year 7% Gold Bonds

The land on which these bonds are a first lien include some of the best irrigated orchard and vineyard lands in the State. Over 200,000 acres are now under irrigation, and much more is susceptible to intensive farming. In addition to realty values of \$50,000,000 there is personal property and other quick assets totaling \$15,000,000 in value.

The price of these bonds is 100 and accrued interest. They are exempt from personal property taxes in California. Application has been made for carrying them as legal investment for savings banks in California. Bonds are obtainable in \$500 and \$1000 denominations. A letter or phone inquiry will bring you full information in case it is inconvenient to call in person. Ask for Circular E-624.

Preferred Stock Investments

BY FRANK & LEWIS

With the curtailment of credit extensions by banks to industry as a result of the Federal Reserve System to the best interests of all concerned, a large number of companies are issuing preferred stocks.

This is becoming more and more a favored method of financing and is an ideal alternative from the standpoint of the investor, enabling him to obtain a higher yield for his money than would otherwise be possible.

While the corporations pay slightly higher rates of interest for their financing, the rates are never over 5% greater than that paid to the holder of straight commercial loans, which at best can only run for 90 days.

FIRST CLAIM UPON ASSETS

In practically all instances the companies issuing preferred stocks have no funded or mortgage indebtedness, and these securities are preferred as to assets and dividends. The holder of such stock has first claim upon all the assets and earning power of the company.

PREFERRED STOCK FEATURES

From the standpoint of the investor a preferred stock issue is an excellent form of investment. The gain of safety as a rule runs from 150% to 200% for each share of stock; the income from such source is free from Normal Federal Income Tax; and in the case of California companies, the stock is not subject to Personal Property Tax.

In almost all cases sinking funds are provided whereby the companies each year pay into a fund a certain percentage of the year's earnings, which money is used to redeem stock held by the investor at the call price or by purchase in the open market. Thus all of the preferred stock outstanding is bought back or retired by the company, establishing a definite maturity date for the stock.

BANKER BROS. PREFERRED

The Banker Bros. 8% Cumulative Preferred Stock issue embodies all of these safeguards. Owing to the excellent future outlook for the company's continued growth and expansion, this issue is very attractive.

Annual Net Earnings before taxes from January 1, 1916, to April 30, 1920, have averaged \$173,184.55 each

SOUTHERN PACIFIC REPORT.

The annual report of the 20,400 stockholders in the Southern Pacific Company was made public yesterday by the board of directors. The report, which is the first since the company's reorganization, shows a record of operations, on the whole showing a marked increase in efficiency, which was reflected during the period covered, the year 1919.

The average number of miles operated was 11,631.1, a decrease of 1.2 miles, or 1.1 per cent, from the year 1918. The total railway operating revenue was \$220,527,272.85, an increase of \$14,400,000, or 6.5 per cent, over the year 1918. Operating expenses were \$186,077,472.51, an increase of \$14,800,000, or 7.9 per cent, over the year 1918. Net revenue from operations, \$34,449,800.34, a decrease of 10.4 per cent, over the year 1918.

These figures illustrate the disproportionate increase in expenses compared with revenue and the fall in net revenue. In 1919 the operating expenses of the company were \$14,800,000 more than the revenue, while in 1918 the revenue was \$14,800,000 more than the expenses.

There was a decrease of 6.2 per cent in the cost of revenue, which was due to the decrease in the cost of fuel, which was 11.1 per cent, and the decrease in the cost of maintenance, which was 1.1 per cent. The cost of fuel was 11.1 per cent, and the cost of maintenance was 1.1 per cent.

The cost of fuel was 11.1 per cent, and the cost of maintenance was 1.1 per cent. The cost of fuel was 11.1 per cent, and the cost of maintenance was 1.1 per cent.

GIN COMPANIES ARE INDICTED.

Unfair Prices Are Basis of Lever Act Accusations.

Globe Oil Mills and Calico Concerns Are Involved.

Former's Head Says It Grows Out of Old Dispute.

Indictments charging violations of the Lever Act in making what are termed "unfair charges" for the ginning of cotton in the Imperial Valley were returned yesterday by the Federal grand jury against the Globe Oil Mills of this city and the Gorie-Hartman gins, doing business at Calexico.

The officers of the Globe Oil Mills are: W. E. Keller, president; A. H. Morgan, vice-president; and A. D. Buckley, secretary and treasurer, with an office at 907 East Third street, and a refinery in Vernon. W. H. Hartman is president of the Gorie-Hartman gins and Robert G. Gorie is secretary and treasurer, with offices in Calexico.

U. S. Atty. O'Connor stated yesterday that the investigation and resultant indictments followed the receipt of a number of complaints of excessive prices asked and received by the two firms for the ginning of cotton.

SOLICITED OTHERS?

In the indictment against the Globe concern it is declared that the charge of 25 cents a hundredweight for ginning cotton at its mills in Calexico, El Centro, Brawley and Holtville was increased about November 1, 1919, to 50 cents, and that the concern solicited other companies engaged in ginning to make the same increase.

It is further asserted that all of them refused to increase their prices except the Gorie-Hartman gins. Then, the indictment states, the Globe Oil Mills reduced its price for ginning at El Centro, Brawley and Holtville to 30 cents per hundredweight and charged that amount during the balance of the season, while maintaining the 50-cent rate at Calexico in asserted combination with the Gorie-Hartman gins.

It is also set out in the bill that the rate of 55 cents per 100 pounds

MAN TOO LOVING. WIFE TESTIFIES.

Fifty-Fifty. Husband Says: Divorce Ends Separate Maintenance Suit.

Mrs. Amelia Imeschweiler, who married John Imeschweiler in Rochester, N. Y., in 1905, told in separate maintenance proceedings in Judge Crail's court yesterday, a story of excessive love. She said that this excessive love injured her health. Mr. Imeschweiler said it was a 50-50 proposition. At the suggestion of Attorney Harry Chamberlin, representing Mr. Imeschweiler, the court allowed the complaint to be amended and granted the wife a decree of divorce. The children were given into the custody of the father. When the eldest boy is 18 years old, the property is to be sold and divided with the wife. She was allowed \$10 a week for support. Georgia P. Bullock represented Mrs. Imeschweiler.

The five overt acts charged in the Gorie-Hartman gins, involving accusations of unfair charges are: November 22, 1919, ginning of 2240 pounds of cotton for R. McMurray and 2440 pounds for J. J. Heflin; December 10, 1919, ginning of 2160 pounds of cotton for P. Kadir and 2280 pounds for Charles Pittman; January 16, 1920, ginning of 2160 pounds of cotton for P. A. Driscoll.

COMPANY'S SIDE OF IT.

President Keller says the indictment grew out of a fight between cotton gins in the valley, and of small significance. He said that in 1918 his company, which is in the cotton ginning business, was a man named Shaw sufficient money to raise a cotton crop, and that when it was harvested, he undertook to deliver it to the Harris gin in Imperial. It being the understanding that the Harris company had provided him with money with which to repay the Globe Mills. Mr. Keller says his company appealed to the Federal authorities to secure cotton seed, and would gladly sell our gins tomorrow if we could obtain seed otherwise.

Other indictments returned by the grand jury are as follows: Robert Laga, A. D. Gloria and Quan Egan, violation of the Harrison narcotics law; Wallace H. Carter and Carl L. Henly, stealing mail matter in transit; Leonchillo Martinez, having a will in his possession without having the same registered; R. S. Harold, violation of the passport law.

THEIR LAST RESPECTS.

Graduates to Be Guard of Honor at Teacher-War Worker's Funeral.

Members of the graduating class of the Boyle Heights intermediate school will act as a guard of honor at the funeral services to be conducted today for Miss Ella Foglesong, whose teacher she was for three years. Services will be conducted at 2:30 a. m. at the home of her parents, Mr. and Mrs. J. W. Foglesong, 155 South Commonwealth avenue, and at the Cathedral Chapel at 10 a. m. Miss Foglesong died Tuesday.

Born in Carthage, Mo., in January, 1889, Miss Foglesong graduated with honors from Lamar College and the University of Missouri. From 1912 to 1918 she was a teacher of languages in the South Pasadena High School, and thereafter was a teacher in the Boyle Heights intermediate school.

DEFENDS GOOD NAME.

Actress Denies Charges of Wife who is Granted Divorce.

Charlotte Russell, motion-picture actress, took the stand in her own defense in Judge Taft's court yesterday and denied that she had been indicted with Charles P. Binder, automobile salesman, as charged in the amended divorce complaint against Pearl Annette Binder. Testimony was given in regard to a gay party at which the actress was said to have been present and where liquor flowed freely.

Mr. Binder in a cross-complaint asked for a divorce on the ground of cruelty. He denied his wife's charges. Judge Taft granted Mrs. Binder the decree of divorce and ordered Mr. Binder to pay her \$10 a month for a year.

U. S. LAW CLASSES TO GET BUSY MONDAY.

With more than 200 students enrolled in the largest summer school in the history of the college of law, University of Southern California, classes will begin in earnest next Monday. Three courses for practicing attorneys are among those offered. They are: California Codes, by Byron Hanna; probate practice, by Victor McLane; and comparative constitutional law, by Harry McClean.

TEACHERS TO ENTERTAIN.

Members of the Public School Music Teachers' Association of Southern California will entertain the art and music faculties of the summer sessions of the University of Southern California and Southern Branch University of California, at 2:30 p. m. tomorrow in the administration building of the former school. Miss Olga Stueb, Miss Mary Hyde of the Pratt Institute, and others will play.
